Religious education branch

Besides army medical core and dental core, other cadets are trained in Pakistan Military Academy Kakol. Cadets are commissioned in the rank of captain after completing the training. In case of army education core or its branch of religious education, Ph.D or M.Phil degree holder are given concession in term of age and further seniority in rank too or previous service can also be counted. After training these cadets get fundamental education about their concerned core and on different occasions further training is arranged along with other officers during service.

Army Medical College (Pre-medical group)

Those students who have passed FSc in Pre-medical with 65% and their age are between 17, they can apply for admission in Army Medical College for [M.B.B.S course](#) . After selection they get the [M.B.B.S course](#) done for five years in Army Medical College. Having completed the training they go to Army Medical core centre for ten week military training. They were commissioned in the rank of captain after completing this course. Some seats are reserved for women under this scheme.

Technical cadet Course (pre-engineering group)

Candidates having FSc pre-engineering can get commission in army technical cadet course. Candidates who have secured 60 % marks in FSc along with NCC are eligible to apply for this course. A test of FSc level comprising questions from physics, chemistry and mathematics is taken. Successful candidates are called for [I.S.S.B tests](#) . I.S.S.B qualifiers are medically examined in the nearest military hospital. A final list is prepared and the successful candidates are sent to different colleges of Pakistan Army namely Military College of engineering, military college of signals, college of electrical and mechanical engineering.

PMA Kakol is a training center for those officer selected for Pakistan army. Those candidates who qualify ISSB tests are admitted to PMA for training.

Environment

A soldier is trained in such a way that he can face the enemy under any circumstances, therefore officers and solders are expected to be coped with different sort of situation. Army has to do its job whether it is storm, raining, snowing or intense hot and cold.

Future prospect

Progress in army is depending on the conditions of personal ability and success in the required examination. Necessary training is provided at the time of up gradation of the position. It takes normally one year to be lieutenant from second lieutenant, four year from lieutenant to captain and to reach at the slot of major it may take seven years. Selecting suitable candidates for posts above major, increment is made according to capacity and eligibility.

Personal characteristic

An officer is expected to observe discipline. The most important quality of an officer in army is his leadership quality for which he must be confidence. Analytical mind and prompt decision making ability is imperative. It is necessary for an officer to analyze received information. He must be proficient in his work and able to communicate his views to other so that he can create

sense of comradeship.
